

# Discussion points: suggestions

- How can we use the discussion facilities for “general” SDC questions as well, not only software related?
- SDC tools in the IT architecture of our NSIs
- Linking PPT with SDC (linking privacy preserving techniques with statistical disclosure control): do they interact, coexist, etc. Would we expect something from User Group on PPT?
- SDC in a wider context than official statistics, education needs and how to contribute to these
- Census SDC problems and types of solutions for our NSIs
